Objective:

Dedicated and detail-oriented cybersecurity analyst with a proven track record of enhancing organizational security posture through comprehensive threat assessment, vulnerability management, and incident response initiatives. Possessing a solid foundation in network security protocols, risk assessment methodologies, and compliance frameworks, I am committed to proactively identifying and mitigating cyber threats to safeguard sensitive data and infrastructure assets. Leveraging analytical skills and industry expertise, I aim to contribute to a dynamic team environment by implementing robust security measures and staying abreast of emerging cyber threats and best practices.

Education:

Advanced High School Diploma
York High School, Yorktown, Virginia
Graduation Date: June 2024

New Horizons Regional Education Center
Cybersecurity Operations
Hampton, Virginia
Graduation Date: May 2024

Bachelor of Cybersecurity
Old Dominion University
Norfolk, Virginia
Graduation Year: 2028

Certification:

- NOCTI Cybersecurity Fundamentals (March 2024)
- Security Pro Certification (May 2024)

Skills:

- Network Security

- Programming Languages: Python
- Troubleshooting Intrusions
- Threat Modeling
- Securing Vulnerabilities
- Operating Systems
- Networking
- Incident Responding ● Communication

Projects:

Identify Social Engineering

- Read emails and determine if it legitimate.
- Delete emails that are attempts at social engineering.

Implement Application Whitelisting with AppLocker

- Configuring publisher rules that allow future updates from the same vendors.
- Creating rules to allow files from folders to be used. Configuring Fault-Tolerant Volumes
- Adding fault tolerance for system volumes, creating mirrored volumes using Disk Drives
- Creating new volumes that provide both fault tolerance and improved performance with different settings.

Extra-Curricular Activities:

- CyberLinq Member
- Boeing Day Attendee 2.24.24
- SkillsUSA Member
- MetaCTF Participant
- VA CyberRange CTF Competition Participant
- Virginia Cyber Slam 3.0 Conference Attendee
