- Explain how your memes relate to Human-centered cybersecurity.

<https://unsplash.com/photos/woman-in-white-and-black-long-sleeve-shirt-wearing-black-framed-eyeglasses-LyF5jsdcYW0>

A victim is not aware that the shoes advertisement email they received is a phishing email, and now their credit card information has been obtained after clicking the link and entering their information.

This meme relates to human-centered cybersecurity because human error is the cause of vulnerability.

<https://unsplash.com/photos/black-smartphone-near-person-5QgluuBxKwM>

This is me when I keep receiving spam calls and I used my phone number to access free Wi-Fi.

This is related to human-centered cybersecurity because we think our actions are harmless; human error can cause us to be at risk.

<https://unsplash.com/photos/person-holding-silver-iphone-6-BXiLSwwvqrY>

This is me scrolling on a page I received a follow request from on Instagram, not realizing that the girl in the photos is not actually the person running the account.

This is related to human-centered cybersecurity because I put myself at risk not knowing this account was a catfish and put my safety at risk as well.
