

Let's see how much History you know in Spanish!

TODO LIST:

I am sure everybody knows something about the "Discover of America".

Please [watch this video](#) in Spanish (You can add Spanish subtitles) and pay attention to what they say. Share your thoughts about it and let us know if there was something you did not know.

Answer the following questions in Spanish:

- ¿Cuándo descubrieron que la Tierra era redonda?
- ¿Qué buscaba Colón en su viaje?
- ¿Qué nuevos productos descubrieron los europeos? (At least 2 products)

Please read your classmates' entries and do comment on at least one of them. This is a great opportunity to create a community and to form learning partnerships with each other.

La comprobación de que la tierra es redonda fue con un viaje que empieza en 1519 y terminó en 1521. Colón buscaba el oriente en su viaje. Los europeos descubrieron nuevos productos de los nativos como cuchillos, lanzas, arcos, flechas, y voleadoras.

I was surprised to read about the natives having volleyballs. I also didn't realize that Europeans were unfamiliar with tomatoes and potatoes. All in all, I thought it was a cute video for teaching kids about the "discovery" of America, and I also appreciate that they included the fact that natives were already present and inhabiting for thousands of years before Europeans showed up.
