

#### Journal 4

The researcher will use what they learned about in the videos to conduct studies by seeing how people operate on the dark web. Some examples are the forms that they use, on these forms these people talk about how they have hacked people and stole their identity. They will even give you some tutorials on how to do this crime, with this being said the people who are conducting these studies can learn and help the people on the outside see what is going on and how to sort of put a stop to this.
