

For every test you archived in your ePortfolio Google drive, you should have a reflection that briefly discusses:

- 1) How and why the test demonstrates your work toward one, or more, of the course learning objectives. Be specific on the course objectives you decide to mention.
- 2) How your test compares against the available solution. State the mistakes you made and what you will do next time to avoid making the same mistakes. Please point out exactly where you made the mistake, say why you made the mistake, and how you should have done it. If you were taking this test again, what advice would you give yourself to ensure that you had a successful test?
- 3) What your grade should be. Base it on the writing rubric provided in the test and the correctness of your solution. What are the strengths and weaknesses of your test?
- 4) Discuss the following:
 - a. What issues did you encounter in completing the test? How did you troubleshoot them?
 - b. What steps did you take to complete the whole test? Would you change something?
 - c. What new concepts have you learned?
 - d. Where do you think engineers use those concepts (provide specific examples)?
 - e. Where do you think you will be using everything you learned?
 - f. Do you think what you learn is important for your professional career?
 - g. How, when, where and why you might use this information or skill in the future?
 - h. Have you been able to apply concepts you have learned in the course to what you do at work or in other courses?
 - i. What areas did you feel you were most successful, or improved the most?
 - j. How do you see this course's content intersecting with your field or career?
 - k. How much time did you spend on the test? How was the time organized? What would you do differently? Why?

In the reflection, you should describe the test using facts and feelings providing relevant details. You should identify strengths and weakness of the test and connect the test with experience. Finally, you should also clearly explain the quality of the artifact and give insight and state reason for judgment.

You have the option of writing your reflection on a document or you could also create an audio. In either of the cases, you must upload the reflection to your website.
