EDUCATION

Old Dominion University, Norfolk, VA

Master of Science in Cybersecurity (Completed)

Bachelor of Science in Cybersecurity, Perry Honors College

CERTIFICATIONS

- CompTIA Security+ (DoD 8570 IAT Level II)
- Microsoft SC-200 – Security Operations Analyst Associate
- Microsoft AZ-900 – Azure Fundamentals
- Microsoft AZ-500 – Azure Security Engineer (In Progress)

TECHNICAL SKILLS

- **Security Operations & Monitoring:** Incident detection & response, SIEM (Exabeam), Microsoft Defender, phishing analysis, threat triage
- **Identity & Endpoint Security:** Microsoft Entra ID (Azure AD), Active Directory, MFA, Conditional Access, RBAC, Group Policy, endpoint hardening
- **Systems & Networking:** Windows/Linux administration, TCP/IP, DNS, VPNs
- **Automation & Scripting:** PowerShell, Python
- **Frameworks & Compliance:** NIST CSF, NIST 800-61, audit support, risk mitigation
- **Communication:** Security documentation, incident reports, executive summaries

PROFESSIONAL EXPERIENCE

Information Security Analyst – Chartway Credit Union (Aug 2024 – Present)

- Perform incident detection, triage, and response using Exabeam and Microsoft Defender across enterprise environments
- Investigate security alerts, analyze phishing attempts, and execute containment and remediation actions
- Partner with IT and security teams to identify vulnerabilities and implement risk reduction strategies
- Develop and maintain incident response documentation, playbooks, and audit artifacts aligned with NIST standards

IoT & Network Applications Specialist – Old Dominion University (Aug 2023 – Aug 2024)

- Managed security and access control for 2,500+ IoT and network-connected devices
- Implemented secure configurations, authentication controls, and network segmentation strategies
- Collaborated with vendors and internal teams to maintain compliance with institutional security standards

IT Intern (Cybersecurity & Infrastructure) – Chartway Credit Union (May 2024 – Aug 2024)

- Supported LDAPS integrations to streamline directory synchronization and enterprise address management
- Standardized and deployed printer configurations across multiple branches, reducing configuration inconsistencies
- Delivered Tier 1–2 technical support for users, ensuring system availability and operational continuity
